

MULTIBEL DISTRIBUTION INC.

SAFETY DATA SHEET (SDS)

INTRA CLEANER

1. IDENTIFICATION

Product identifier: INTRA CLEANER
Other means of identification: INTRAPRO
Product form: Aerosol
Recommended use: Intra-auricular cleaner
Restrictions on use: For professional use only.
Supplier: Multibel Distribution Inc.
Canadian address: 2351 Guenette St., St-Laurent QC H4R 2E9
Telephone: 514-990-9819
Emergency telephone number: Not available

2. HAZARD IDENTIFICATION

WHMIS / GHS classification: Aerosols - Category 1; Eye Irritation - Category 2A; Specific Target Organ Toxicity - Single Exposure - Category 3 (narcotic effects).

Signal word: DANGER
WHMIS/GHS pictograms: Flame;
Exclamation mark
Supplemental environmental information:
H411 – Toxic to aquatic life with long lasting effects.

Hazard statements: H222 - Extremely flammable aerosol. H229 - Pressurized container: may burst if heated. H319 - Causes serious eye irritation. H336 - May cause drowsiness or dizziness.

Additional information communicated by the manufacturer: H411 - Toxic to aquatic life with long lasting effects. EUH066 - Repeated exposure may cause skin dryness or cracking.

Precautionary statements communicated: P102 - Keep out of reach of children. P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P211 - Do not spray on an open flame or other ignition source. P251 - Do not pierce or burn, even after use. P260 - Do not breathe vapours/aerosols. P271 - Use only outdoors or in a well-ventilated area. P273 - Avoid release to the environment. P391 - Collect spillage. P410 + P412 - Protect from sunlight. Do not expose to temperatures exceeding 50 °C.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Ingredient	CAS No.	Concentration
N-hexane	110-54-3	< 1 %
Hexane, mixture of isomers containing less than 5% n-hexane	Non indiqué / Not specified	< 25 %
Ethanol	64-17-5	> 75 %
Carbon dioxide	124-38-9	Non indiquée / Not specified

Other information: Benzene content < 0.1% by weight. More precise mixture concentrations are not disclosed by the manufacturer.

4. FIRST-AID MEASURES

Inhalation: Move to fresh air. Keep at rest. Seek medical attention if breathing difficulties persist.
Skin contact: Rinse immediately with plenty of water. Seek medical attention if discomfort or irritation develops.
Eye contact: Rinse immediately with clean water for 10 to 15 minutes. Seek medical attention if irritation develops.
Ingestion: Rinse mouth. Do not induce vomiting. Keep at rest and seek medical attention.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media: Dry powder.
Unsuitable extinguishing media: Do not use a strong water jet.
Specific hazards: Extremely flammable aerosol. Pressurized container may burst if heated. May form flammable vapour-air mixtures.
Protective measures: Cool aerosols and exposed surfaces with water spray. Do not enter the fire area without appropriate protective equipment, including respiratory protection.

6. ACCIDENTAL RELEASE MEASURES

General precautions: No smoking. Remove all ignition sources. Ventilate the area. Evacuate and restrict access.

Personal precautions: Use appropriate respiratory and eye protection when necessary.

Environmental precautions: Prevent entry into sewers and drinking water. Avoid release to the environment.

Containment and cleanup: Contain the product for recovery or absorb with suitable material. Collect spillage.

7. HANDLING AND STORAGE

Handling: Keep away from ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn the container, even after use. Do not breathe vapours/aerosols. Use only in a well-ventilated area.

Storage: Protect from sunlight. Do not expose to temperatures exceeding 50 °C. Store in a dry, well-ventilated place away from heat, flames and sparks.

Hygiene: Wash hands and exposed areas before eating, drinking or smoking and before leaving work.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Ventilation: Provide adequate local exhaust or general ventilation.

Respiratory protection: Not required under normal intended-use conditions with adequate ventilation.

Eye protection: Avoid eye contact. Wear suitable eye protection where exposure risk warrants it.

Hand / skin protection: Use suitable protection in case of prolonged or repeated contact.

Historical exposure limits communicated: n-Hexane: TWA 170 mg/m³ (50 ppm); hexane, mixture of isomers: TWA 1760 mg/m³ (500 ppm), STEL 3500 mg/m³ (1000 ppm); ethanol: TWA 1900 mg/m³ (1000 ppm), STEL 9500 mg/m³ (5000 ppm). Verify exposure limits applicable at the workplace.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Liquid aerosol

Colour: Colourless to slightly yellow

Odour: Characteristic

Flash point: < 21 °C

Aerosol pressure at 20 °C: 6 bar

Other properties: Not available.

10. STABILITY AND REACTIVITY

Stability / reactivity: Stable under normal recommended conditions of use and storage.

Conditions to avoid: Sunlight, heat, open flames, sparks and other ignition sources.

Incompatible materials / hazardous decomposition products: Data not available.

11. TOXICOLOGICAL INFORMATION

Inhalation: May cause drowsiness or dizziness. High vapour concentrations may irritate the respiratory tract and cause central nervous system effects.

Skin contact: Repeated exposure may cause skin dryness or cracking.

Eye contact: Causes serious eye irritation.

Detailed numerical toxicological data: Not available.

12. ECOLOGICAL INFORMATION

Ecotoxicity: Toxic to aquatic life with long lasting effects (H411, information communicated by the manufacturer).

Persistence, degradability, bioaccumulation and mobility: Data not available.

13. DISPOSAL CONSIDERATIONS

Disposal: Dispose of product and aerosol containers in accordance with applicable regulations. Avoid release to the environment.

14. TRANSPORT INFORMATION

UN number: UN 1950

Proper shipping name: AEROSOLS

Transport hazard class: 2.1 (ADR and IATA, information confirmed by the manufacturer).

Marine transport / other requirements: Verify requirements applicable to the mode of transport and jurisdiction before shipment.

15. REGULATORY INFORMATION

Canada: SDS prepared using the 16-section WHMIS format. Canadian classification used: Aerosols - Category 1; Eye Irritation - Category 2A; Specific Target Organ Toxicity - Single Exposure - Category 3 (narcotic effects). H411 and EUH066 are retained as supplemental information communicated by the manufacturer.

16. OTHER INFORMATION

Date of latest revision: 2026-09-21
